1. No grouting

ANYWAY FLOOR smart wall tile eliminates the need for tedious grouting. Thanks to installation with mounting adhesive, installation is lightning fast and clean.

2. Simple assembly

The tiles can be installed quickly and easily without special tools. They fit together precisely and ensure uncomplicated and clean installation.

3. Individual customisation through cutting

ANYWAY FLOOR smart wall tile can be easily cut to size without special tools. The material adapts to any wall - ideal for do-it- yourself projects.

4. Laying on existing walls

Slight unevenness can be effortlessly concealed.

5. Endless design

The design of the first tile can be arranged seamlessly on the fourth tile, creating a continuous, endless pattern.

6. Do it yourself

One Day Project! ANYWAY FLOOR smart wall tile can be installed in just one day.

1. No Grouting

ANYWAY FLOOR smart tiles feature a precise interlocking design, eliminating the need for time-consuming grouting. Installation is clean and efficient.

2. No Adhesive Needed

Our innovative locking system ensures a secure fit without the use of glue, making installation simpler and more eco-friendly.

3. Easy Disassembly

The unique interlocking structure allows for quick removal without damaging the subfloor, making replacements and adjustments effortless.

4. Low Profile Design

The thin construction enables a seamless transition to adjacent flooring and makes renovation projects easier.

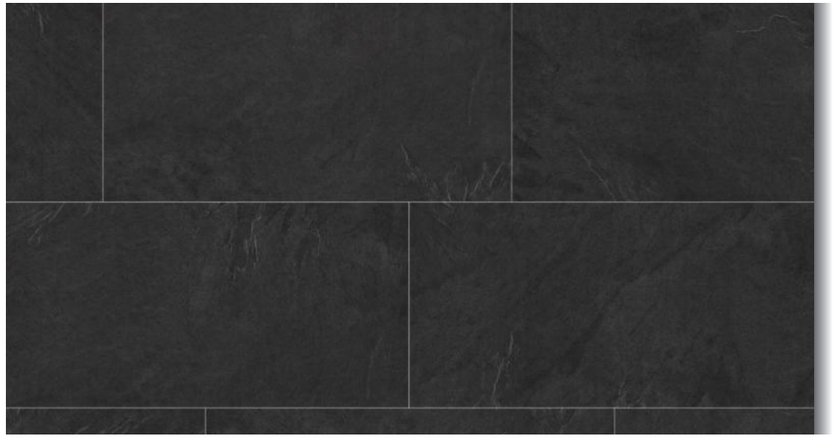

5. Do it yourself

ANYWAY FLOOR smart tiles are easy to install—just click them together, and you're done in a day! No glue, no drying time, just instant usability.

ANYWAY FLOOR tile solves problems with just one click

Laying tiles has never been so easy. ANYWAY FLOOR smart tile enables tiles to be laid professionally without the use of complicated tools or specialised knowledge. The innovative click system ensures that every tile is laid neatly and firmly, avoiding uneven transitions and loose joints.

- ✓ No bonding
- ✓ No grouting
- ✓ Easy disassembly
- ✓ Instant use
- ✓ One Day Project
- ✓ Do it yourself

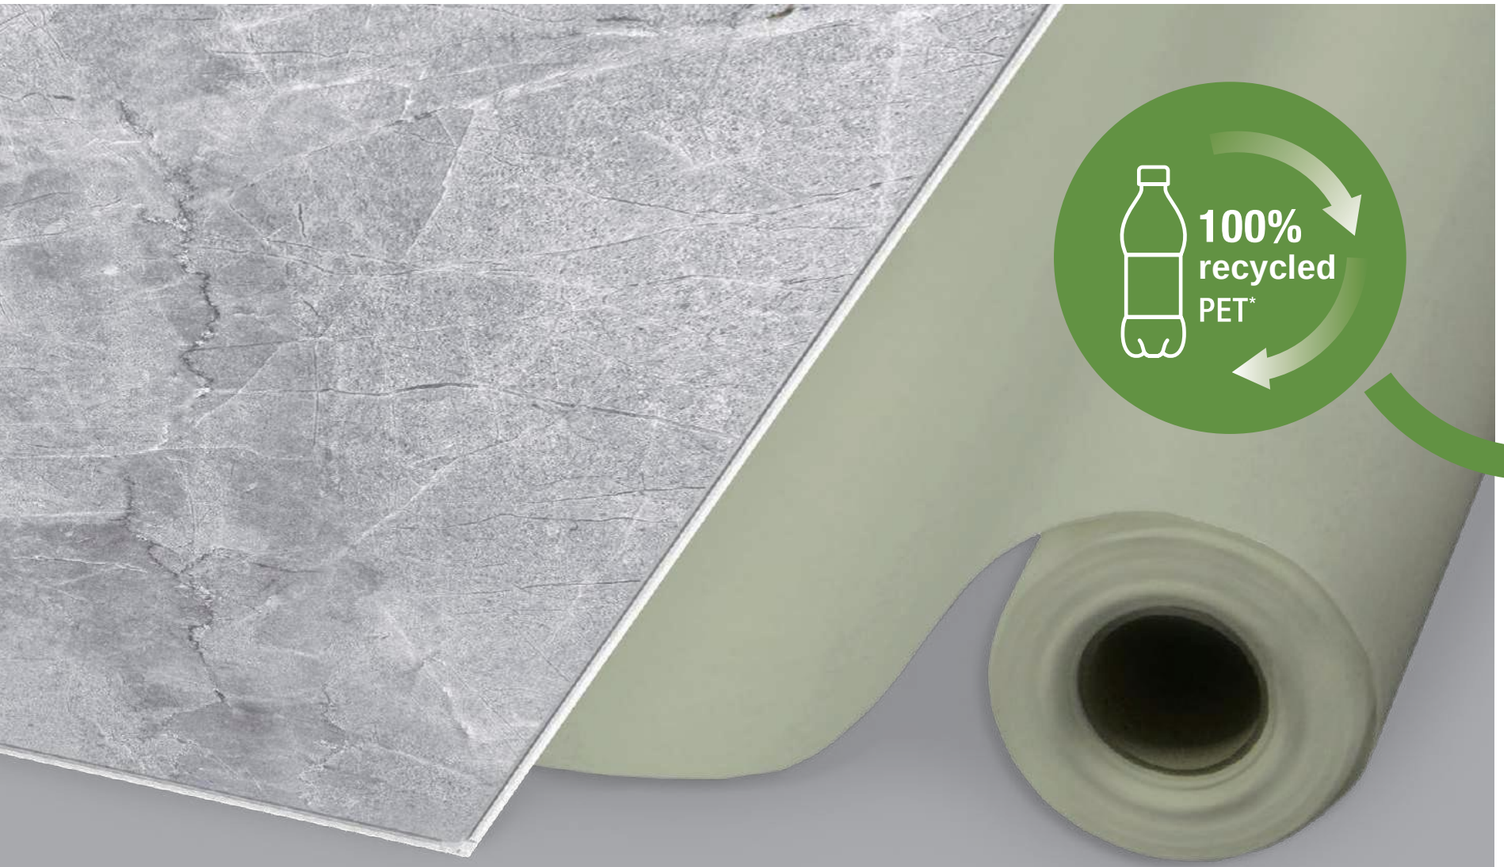

ANYWAY FLOOR

The smallest joint for the perfect design – seamless, elegant, timeless.

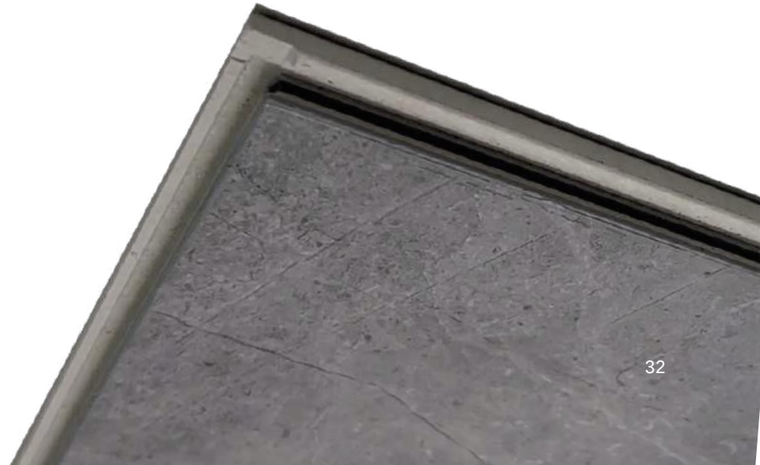

INNOVATION

ANYWAY FLOOR laying mat for click tiles

The ANYWAY FLOOR installation mat is the only accessory required for click tiles. Not only does it provide a stable and even base, but the PET used is made from 100% recycled material. This actively contributes to environmental protection while creating a fresh look in the home. The flooring is laid in conjunction with the installation mat. This is easy to handle and offers excellent protection for the floor - a sustainable solution that perfectly combines functionality and environmental awareness without compromising on quality.
